# DESIGN – WEEK 1

Brainstorming and coming up with an idea

## CYBER ATTACK TRENDS

### *"The Idea"*

This week we started the assignment and determined that we will be researching the Cyber Attack Trends of the last couple of years. Ultimately, we want to visualize the following:

- Show from which countries the most cyber attacks originate
- Show which countries are targeted the most by cyberattacks
- Specify which methods are used the most in these attacks (For example, data breaches, malware, ransomware)
- What are the goals/motivations of these attacks?
- What kind of impact do these attacks have and what is the social importance of these attacks?

Sources we'll probably use:

Verizon Data Breach Report 2017:

http://www.verizonenterprise.com/resources/reports/rp_DBIR_2017_Report_en_xg.pdf

Symantec Internet Security Threat Report 2017:

https://www.symantec.com/content/dam/symantec/docs/reports/gistr22-government-report.pdf
